

## ARCHITECTURAL EXHIBITION BY OPOLIS ARCHITECTS

### **Objectives: To make students aware of the works of different architects in the industry**

Vu architecture students were given a chance to visit the works of the studio Opolis. The exhibition gave them the opportunity to witness the works of eminent architects. They got an opportunity to see different scales of projects done in the industry and how different architects undertake different project in the market. They saw various models and architectural design as well as technical drawings.

The exhibition proved to be an eye opener for the students.
