Pledge:

Vishwakarma University, Pune is committed to the mission of using renewable energy. We believe that it is our duty to use renewable energy in all possible activities of the University. In furtherance of the same, I take this pledge that I will remain committed towards the use of renewable energy and devote time for edification of others on this issue. I will devote 100 hours per year that is two hours per week to voluntary work for increasing awareness of all stakeholders of the University with respect to the use of renewable energy. I will neither waste energy nor let others to do the same. I will initiate the quest for use of renewable energy by myself, as well as by my family members, by my friends in locality and my colleagues at work place. I will propagate the message of use of renewable energy in my locality, in villages and towns. I will encourage 10 other persons to take this pledge which I am taking today. I will endeavour to make them devote their 100 hours per year for use of renewable energy by others as well. I am confident that every step I take towards use of renewable energy will help in making my country environment friendly.
