Increase the Gross Enrolment Ratio

The etymology of the word 'university' is Latin word Universitas (the whole, aggregate). This is the social responsibility of education system to prepare human resource in the context of societal needs and prepare students for life and livelihood.

In the context of India, it is necessary to establish universities since we need to match up with the Gross Enrolment Ratio (GER) of developed countries. We definitely need more universities/educational facilities to increase GER. India aims to attain GER of 30 per cent by 2020 wherein present GER (2016-17) is 25.2 per cent.

It is expected that, in 2020, the average age of an Indian will be 29 years, compared to 37 for China and 48 for Japan. This is a massive latent intellectual capital that needs to be well groomed in the context of societal needs. To put it in a perspective, we

It is expected that, in 2020, the average age of an Indian will be 29 years, compared to 37 for China and 48 for Japan. This is a massive latent intellectual capital that needs to be well groomed in the context of societal needs.

should look at another parallel interesting happening.

What all is needed is to spur the thinking ability and innovation spirit in young minds and channelise thinking and energy in the appropriate direction through an enabling environment creation - University system!
