

# Good education, research & industry linked courses

TIMES NEWS NETWORK

Vishwakarma University (VU) is a state private university established under the Government of Maharashtra Act. It offers education, applied research and innovation opportunities. The focus is on development of the student as a professional for society, to enhance the employability potential to prepare a student for a career, life and livelihood and add values to help secure better scholarships and opportunities. The curricula for various faculties has been developed in consultation with the industry. There is an experienced well-qualified faculty who teaches and mentors the students. The choice-based credit system enables diversity in education and flexibility and freedom for students to choose subjects from different fields.

The Vishwakarma University

“VU recognizes each student as an asset. It upholds academic, research and innovation excellence. Students are groomed to be professionals. VU wants research and innovations to be come patents and solutions
