

Ref: VU/SFC/ 2019-20/March/008

Date: 27 March 2020

Dear Parents,

Hope you are doing well and are healthy.

This is to provide you an update on the developments on the academic front. As all of us know, entire VU teaching-learning is transitioned to online mode. There have been communications from the Student Facilitation centre of the University regarding the online learning transition from time to time.

Please ensure that your wards follow all the appeals made by the University authorities. It is a challenging time for all of us and we do indeed deeply appreciate students' response to the online engagement mode. As we are moving forward, and with initial challenges, we are now stabilizing with the online engagement. In the current situation, we will also have to conduct the CIEs online. It is decided to conduct the CIEs once the online engagement is completely in equilibrium. We wish to provide enough time for all our students and faculty to be familiar and seamlessly work with the online mode.

The University has taken a decision to conduct third CIE after 10th April 2020 with the help of ERP platform of Vishwakarma University. Second CIE, if pending, will be conducted in the first week of April by online mode. Respective Deans, Heads and Class Teachers are informed about it and the subject teachers will convey the details during their online sessions.

Kindly stay at home and be safe and also ensure the same for your wards.

Thanking you,
